SUMMARY

Enthusiastic Full Stack Developer with a solid foundation in Java, JavaScript, and Python technologies. Proficient in front-end development using React and skilled in building back-end solutions with Flask. Well-versed in HTML, CSS, and Bootstrap for creating visually appealing user interfaces. Although I haven't gained financial success yet, I am committed to continuous learning and improvement. My dedication to refining skills and contributing to meaningful projects positions me as a dedicated and motivated developer ready to tackle new challenges.

EDUCATION

Bachelor in Computer Science

Lebanese University

📅 2020 - 2023 📍 Ras Maska

GPA

80 / 100

PERSONAL PROJECTS

Static HTML/CSS Pages

- Created and designed over 20 static HTML, CSS and JS pages for various purposes; scoring over 85 on Lighthouse.
- Simultaneously used some technologies like SASS and Bootstrap.

Weather App & News App

- Developed a weather application using Flask that provides real-time weather/news information.
- Utilized a third-party weather API to fetch and display weather/news data.
- Implemented a clean, intuitive user interface using Bootstrap.

Task Management App

- Developed a task management app using Flask and PostgreSQL.
- Created a user authentication system (signup, login, logout).
- Used Bootstrap to implement a clean user interface.

Financial Admin Dashboard

- Create a Financial admin dashboard for a customer.
- Create the backend API using Flask.
- Implemented the frontend using React, Redux toolkit, Tailwind CSS and Shadcn UI.
- APP: <https://react-frontend-production-48e6.up.railway.app/>
