📍 Kalamoun, Lebanon

SUMMARY

Enthusiastic Full Stack Developer with a solid foundation in Java, JavaScript, and Python technologies. Proficient in front-end development using React and skilled in building back-end solutions with Flask. Well-versed in HTML, CSS, and Bootstrap for creating visually appealing user interfaces. Although I haven't gained financial success yet, I am committed to continuous learning and improvement. My dedication to refining skills and contributing to meaningful projects positions me as a dedicated and motivated developer ready to tackle new challenges.

EDUCATION

Bachelor in Computer Science

Lebanese Unversity

📅 2020 - 2023   📍 Ras Maska

GPA
80 / 100

PERSONAL PROJECTS

Static HTML/CSS Pages

- Created and designed over 20 static HTML, CSS and JS pages for various purposes; scoring over 85 on Lighthouse.
- Simultaneously used some technologies like SASS and Bootstrap.

Weather App & News App

- Developed a weather application using Flask that provides real-time weathe/news information.
- Utilized a third-party weather API to fetch and display weather/news data.
- Implemented a clean, intuitive user interface using Bootstrap.

Task Management App

- Developed a task management app using Flask and PostgreSQL.
- Created a user authentication system (signup, login, logout).
- Used Bootstrap to implement a clean user interface.

SKILLS

Client-Side

HTML   CSS   JavaScript   React

SASS   jQuery   Bootstrap

Tailwind CSS

Server-side

Python   Java   C   Flask

NumPy   MySQL   PostgreSQL

Development & Operations

Git   Github   Vscode   Pycharm

Intellij   PyUnit   JUnit   DSA

CERTIFICATIONS

Learn JavaScript (scrimba)

🔗 https://scrimba.com/learn/learnjavascript

Learn the basics of JavaScript by solving 140+ interactive coding challenges.

Learn React (scrimba)

🔗 https://scrimba.com/learn/learnreact

arn the basics of modern React by solving 140+ interactive coding challenges and building eight fun projects.
